Dadah Taufik Permana

INDUSTRY EXPERTISE & TECHNOLOGIES

Kotlin – Dart – Flutter - Firebase - Version Control System

EXPERIENCE

Superbootcamp – *BMS x ISI*

I have completed the Super Bootcamp program at BMS x ISI and received training to become a certified mobile programmer.

📅 18 February – 18 April 2023

Intensive Pairing Batch 12– *Refactory*

📅 12 Sepember – 9 Desember 2022

I have participated in an intensive pairing program at The Refactory and made a significant contribution as a participant in their intensive pairing sessions.

●   Develop mobile project Mediverse / Biofarma (mobile dev using Kotlin)

EDUCATION

Madrasah Aliyah PERSIS Garut 76
📅 2013 – 2016

Jenderal Soedirman Univertisy Animal Husbandry Faculty
📅 2016 – 2020

LANGUAGES

● **English – Elementary**
● Indonesian – Native

assistant not-permanent–
Jenderal Soedirman Univertisy Animal Husbandry Faculty

📅 24 February – 26 juny 2020

- Presenting and providing information and materials related to practicum
- assist the head of the laboratory and the supervisor in the practicum implementation process
- make an assesment of practicum participants

seminar and training

- Event Tantangan dan Tips Persiapan Menjadi Software Developer.-27 agustus 2022 (online)

Portofolio *all project link github*

   As a front-end mobile developer, my expertise lies in using technologies such as Kotlin and, more importantly, Dart with the Flutter framework. I have experience integrating with APIs provided by the backend to create seamless mobile applications. Additionally, I am familiar with Firebase, which can also be utilized for integration purposes. I am skilled in building user-friendly and responsive mobile applications, and I am capable of working independently or as part of a team. Like you, my goal is to contribute to the advancement of the IT industry in Indonesia and improve the overall quality of IT solutions.
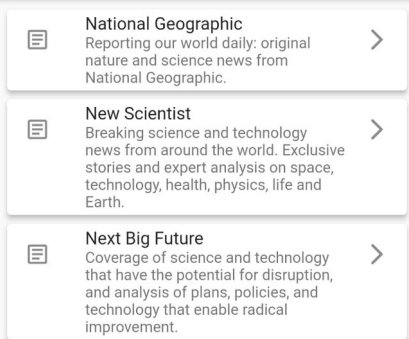

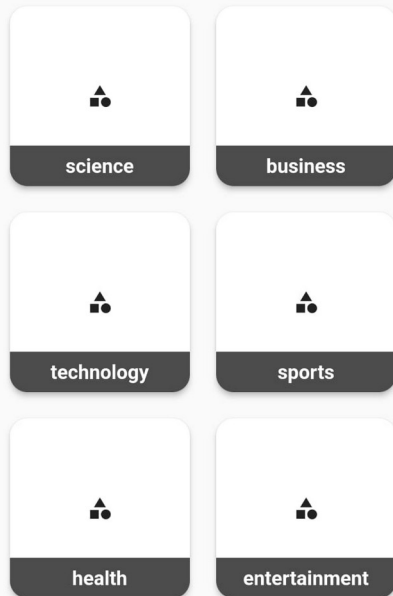

My Project

## News App *link github*

   This News App is a project that di   splays news and news channels according to their categories, I am using the webview package to display the details of the news.. The application includes several news categories such as science, sports, technology, business, health, general, and entertainment. In this project, I use Getx as the state management solution and implement clean architecture principles.

Skinventory

The Skinventory app is an application designed to help users keep track of their beauty products and manage their expiration dates. It was developed by a team of four individuals during the Superbootcamp at ISI. The app is built using the Flutter framework, and it utilizes Firebase for certain functionalities such as user authentication and data storage. Additionally, local storage is used for storing certain data locally on the device. It's worth noting that the repository for the app is set as private, meaning that it is not publicly accessible or viewable by others.

Food Market

Food Market is a mobile-based ordering application developed using Flutter. I collaborated with a Python backend team and another Flutter team for this project. In this project, I created a homepage that displays a list of items based on categories, as well as the ability to get item details by category. Additionally, I implemented the functionality to create a cart and display the cart items in a cart list. The project utilizes Getx as the state management solution and follows the principles of clean architecture.

SURAT KETERANGAN

Nomor : 013/BTP/LGL-ADM/XII/2022
Perihal : Surat Keterangan Pelatihan

Yang bertanda tangan di bawah ini atas nama Manajemen PT Bixbox Teknologi Perkasa - Refactory.id, menerangkan bahwa :

Nama   : Dadah Taufik Permana
NIK   : 3205051404970003

Adalah benar telah mengikuti program pelatihan Intensive Pairing di PT Bixbox Teknologi Perkasa (Refactory.id) sebagai Peserta terhitung mulai tanggal 12 September 2022 sampai dengan 9 Desember 2022. Terima kasih atas dedikasi yang terjalin selama ini.

Demikian surat keterangan ini diterbitkan untuk digunakan sebagaimana mestinya.

Yogyakarta, 9 Desember 2022
